

Comment générer un OT correctif ?

help2.fractal.com/hc/fr/articles/25200015086093-Comment-générer-un-OT-correctif

À tout moment au cours de l'exploitation de nos actifs, des défauts peuvent survenir et nécessiter la création d'un OT correctif. Dans ce cas, nous entrerons dans le module des tâches où nous trouverons les bons de travail.

Il suffit de cliquer sur le bouton Ajouter une tâche non planifiée, situé en bas à droite, pour commencer à créer l'ordre de travail correctif. Ce bouton se trouve dans toutes les vues des bons de travail (Kanban, Calendrier ou Liste).

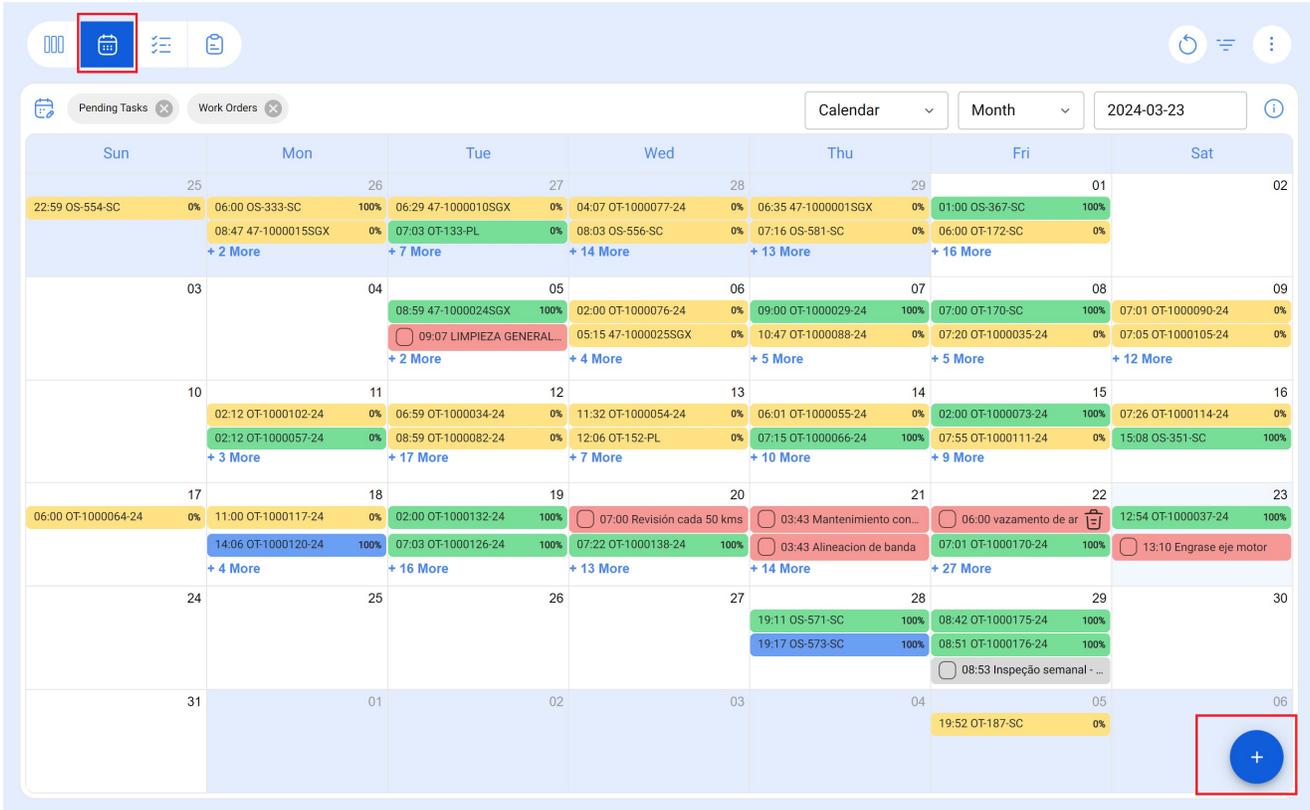

Kanban view

The screenshot displays the 'Work Management' interface in 'View Kanban' mode. The top navigation bar includes a menu icon, the text 'Work Management View Kanban', a 'Old Version' link, and several utility icons. The main workspace is divided into four columns representing different stages of work orders (WOs):

- Pending Tasks:** Contains three task cards with priority levels: 'MEDIUM PRIORITY' (Manutenção a cada 250hrs), 'HIGH PRIORITY' (MANTENIMIENTO CADA 1000 HORAS), and 'VERY HIGH PRIORITY' (REVISIÓN POR TEMPERATURA).
- WOs in Process:** Contains three cards for work orders currently being worked on, such as 'Aire acondicionado 1' and 'Multiple assets'.
- WOs in Review:** Contains three cards for work orders under review, such as '{ BT-002 } Banda transportadora' and '{ CB-05 } Caminhão Báscula Mercedes'.
- Closed:** Contains a column for completed work orders.

In the bottom right corner of the Kanban view, a blue circular button with a white plus sign is highlighted by a red box, indicating the 'Add new task' function.
