

Does Fracttal One have a feature for auditing changes made in the solution (change traceability)?

 help.fracttal.com/hc/en-us/articles/24987223327757-Does-Fracttal-One-have-a-feature-for-auditing-changes-made-in-the-solution-change-traceability

Yes, we have an Add-on called TRANSACTION LOG, which allows you to check the full history of actions performed by each user within the different modules of the platform.

For example, it is possible to identify which user deleted a specific asset or check the exact date when a human resource record was deleted, thus providing detailed control of operations.
