

Concurrent background bulk exports – Help Center

help.fracttal.com/hc/en-us/articles/43275566618125-Concurrent-background-bulk-exports

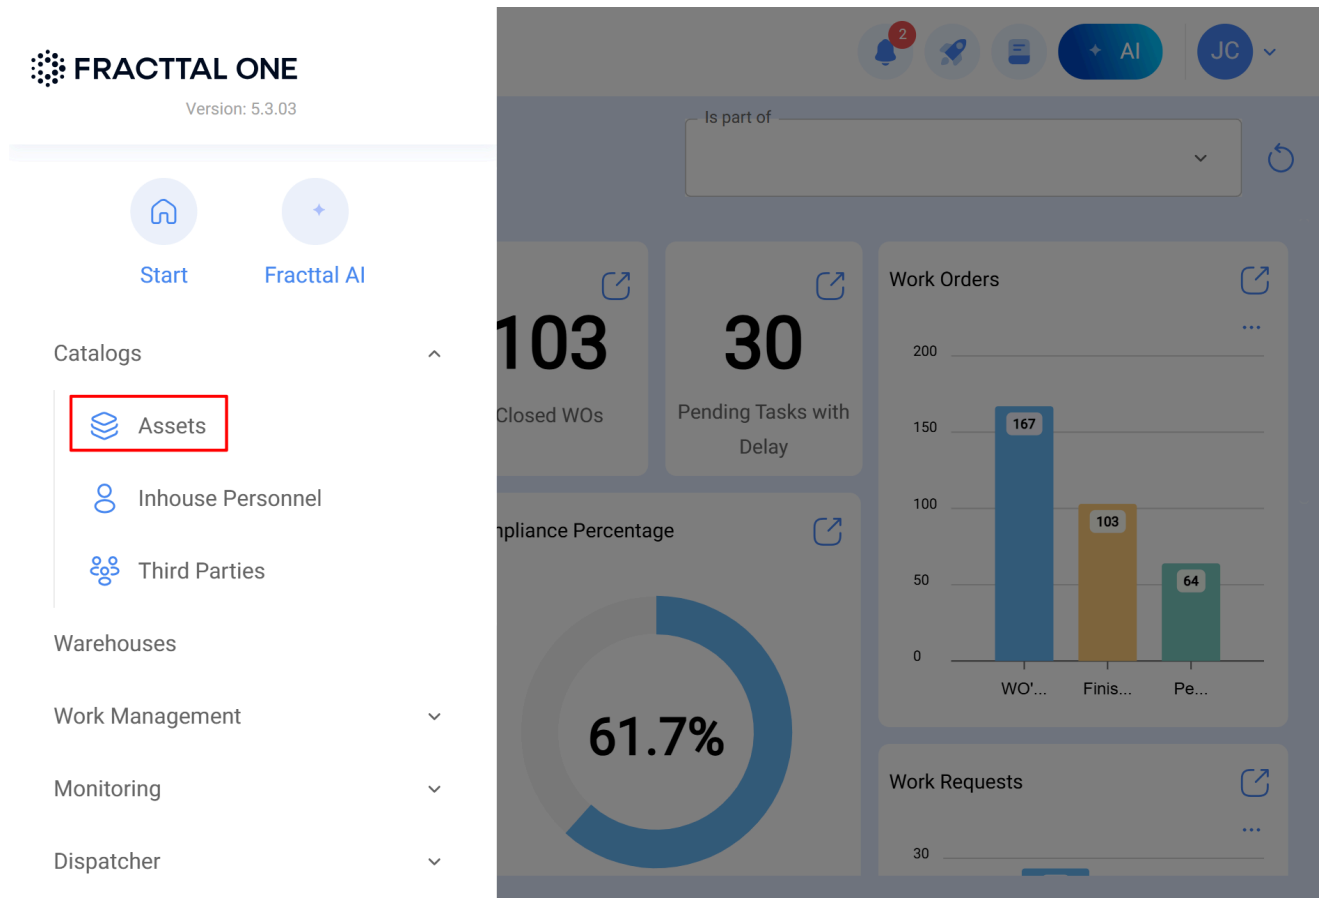

Is it possible to run multiple bulk exports in Fractal One?

Yes. In Fractal One, bulk exports can run in parallel using background processing. This ensures that other system operations remain unaffected while the export is being executed.

Note: The system allows up to 5 simultaneous bulk exports per module.

To perform a bulk export:

1. Access the relevant module (e.g., Assets, Work Orders).

The screenshot displays the Fractal One user interface. On the left is a navigation sidebar with the following sections: 'Start' and 'Fractal AI' buttons; 'Catalogs' with sub-items 'Assets' (highlighted with a red box), 'Inhouse Personnel', and 'Third Parties'; 'Warehouses'; 'Work Management'; 'Monitoring'; and 'Dispatcher'. The main dashboard area shows several widgets: 'Closed WOs' with a value of 103; 'Pending Tasks with Delay' with a value of 30; 'Compliance Percentage' with a donut chart showing 61.7%; 'Work Orders' with a bar chart showing values of 167, 103, and 64; and 'Work Requests' with a value of 30. The top right corner includes a notification bell with a '2' badge, a search bar, and a user profile 'JC'.

2. Apply the necessary filters to define the dataset you want to export.

- Open PDF
- Export
- Bulk export data**
- Print QR
- Import
- Delete Imported Data
- Fields Configuration
- Clone Asset
- Batch Edition

4. The system will start the process in the background. You can initiate up to four additional exports per module.

The screenshot shows the 'Assets Equipment' management interface. At the top, there is a search bar and user profile 'JC'. Below, a table lists 200 selected assets. A context menu is open over the table, showing options like 'Open PDF', 'Export', 'Bulk export data', 'Print QR', 'Import', 'Delete Imported Data', 'Fields Configuration', 'Clone Asset', and 'Batch Edition'. A green notification box at the bottom states: 'We are processing your bulk export. The time may vary depending on the amount of data. Please check your inbox.' The table columns are 'Enabled', 'Out of Service', 'Description', 'Code', and 'Nombre'.

We are processing your bulk export. The time may vary depending on the amount of data. Please check your inbox.

5. Each export can be monitored individually, and the generated files will be available for download once processing is complete.

The screenshot displays a software interface for managing equipment. The main area shows a table of 200 selected assets, with columns for 'Enabled', 'Out of Service', and 'Description'. The 'Enabled' column contains 'Yes' for all items, and 'Out of Service' contains 'No'. The 'Description' column lists various equipment types like 'ALMACEN GENERAL', 'AUDITORIA INTERNA', and 'BAÑOS COLABORADORES'. A 'Notifications' panel is open on the right, showing a list of recent exports and a massive download task. The notifications are:

- Bulk export** (End Date: 2026-02-05 12:28)
- Bulk export** (End Date: 2026-01-30 09:24)
- Bulk export** (End Date: 2026-01-30 09:24)
- Massive download of WOs** (Number of WOs: 100, Number of tasks: 200, End Date: 2026-01-19 15:49)

Once the export is finished, you will receive an email notification with a link to download the final file.

Mass Export

Hello,

The mass export you requested from module **Assets** has been successfully completed.

You can download the file by clicking the following link:

Download file

The link will be available for 7 days.

If you have any questions or need further assistance, feel free to write to us at soporte@fractal.com.

You are receiving this email because you are an active user of app.fractal.com

Note: The download link will remain available for 7 days.
