

# Is it possible to make the option of an adjunct to the WO mandatory?

[help2.fractal.com/hc/en-us/articles/25289749008141-Is-it-possible-to-make-the-option-of-an-adjunct-to-the-WO-mandatory](https://help2.fractal.com/hc/en-us/articles/25289749008141-Is-it-possible-to-make-the-option-of-an-adjunct-to-the-WO-mandatory)

Yes, this option is possible in Fractal One and in order to take advantage of it we share with you the process you must follow. Remember that this step must be performed directly in the task.

## Scheduled tasks

For scheduled tasks, it is necessary to create this step by step directly in the task within the respective task list.

1. Go to the Task Plan module and open the corresponding maintenance plan.

The screenshot shows the Fractal One interface for 'Planned Maintenance'. The left sidebar has 'Task Plans' highlighted. The main table lists tasks with columns: Description, Configured..., Priority, Estimated Duration, Task type, and Group 1. The task 'RUTA DE ALIMENTADORES DE RESIDUO' is highlighted with a red box.

Description	Configured...	Priority	Estimated Duration	Task type	Group 1
MANTTO MOLINO OMNI	Yes	High	02H 00mins	Preventivo	
MTTO CORRECTIVO	Yes	Medium	10mins	Correctivo	
RUTA DE ALIMENTADORES DE RESIDUO	Yes	Medium	01H 30mins	Preventivo	Mecánico

2. Open the task where you are required to have this requirement and then locate the subtask tab.

Set as a cyclical task

1. LIMPIEZA GENERAL DEL AREA DEL ALIMENTADOR

Type: Yes/No  
Group/Part: ALIMENTADOR DE RESIDUO  
Required: ● Yes  
Iterations: --

2. LIMPIEZA DE LA CHUMACERA DE COLA

Type: Yes/No  
Group/Part: ALIMENTADOR DE RESIDUO  
Required: ● Yes  
Iterations: --

3. LIMPIEZA DE CHUMACERA MOTRIZ LADO NORTE

Type: Yes/No  
Group/Part: ALIMENTADOR DE RESIDUO  
Required: ● Yes  
Iterations: --

4. REVISAR QUE LA CORREA TRANSPORTADORA NO ESTE...

Type: Yes/No  
Group/Part: ALIMENTADOR DE RESIDUO  
Required: ● Yes  
Iterations: --

Showing 8 of 8

3. Select the subtask(s) that requires a mandatory attachment and check the Mandatory Attachment option.

The screenshot displays a software interface for 'Work Management Planned Maintenance'. On the left, a sidebar shows 'Details' with sections for 'General', 'Task Plans', and 'Assets Linked'. The main area shows a list of subtasks for 'ALIMENTADORES CALDERA 22' with columns for 'Description' and 'Configured...'. The right panel shows the 'Edit Subtask' form with fields for 'Order', 'Type', 'Group/Part', and 'Description'. The 'Attachment Required' checkbox is highlighted with a red box.

Description	Configured...
MANTTO MOLINO OMNI	Yes
MTTO CORRECTIVO	Yes
RUTA DE ALIMENTADORES DE RESIDUO	Yes

Showing 3 of 3

Order: 1

Type: Yes/No

Group/Part: ALIMENTADOR DE RESIDUO

Description: LIMPIEZA GENERAL DEL AREA DEL ALIMENTADOR

4. Save changes. Now when executing the task planned in a WO, for the subtasks configured as mandatory attachment, you must answer according to the type of subtask and additionally attach an image, note or link.

## Unplanned tasks

For unplanned tasks, it is necessary to create this step-by-step when creating the pending task:

1. Perform the step-by-step of creating an unplanned task as shown in this article: [How to create unplanned WO's](#).
2. When you reach step 3 you should create the subtask as usual:
3. For subtasks that require a mandatory attachment, check the Mandatory Attachment option, and continue normally with the creation of the subtask:

4. Save changes. Now when executing the task planned in a WO, for the subtasks configured as mandatory attachment, you must answer according to the type of subtask and additionally attach an image, note or link.
