

Entrepôts

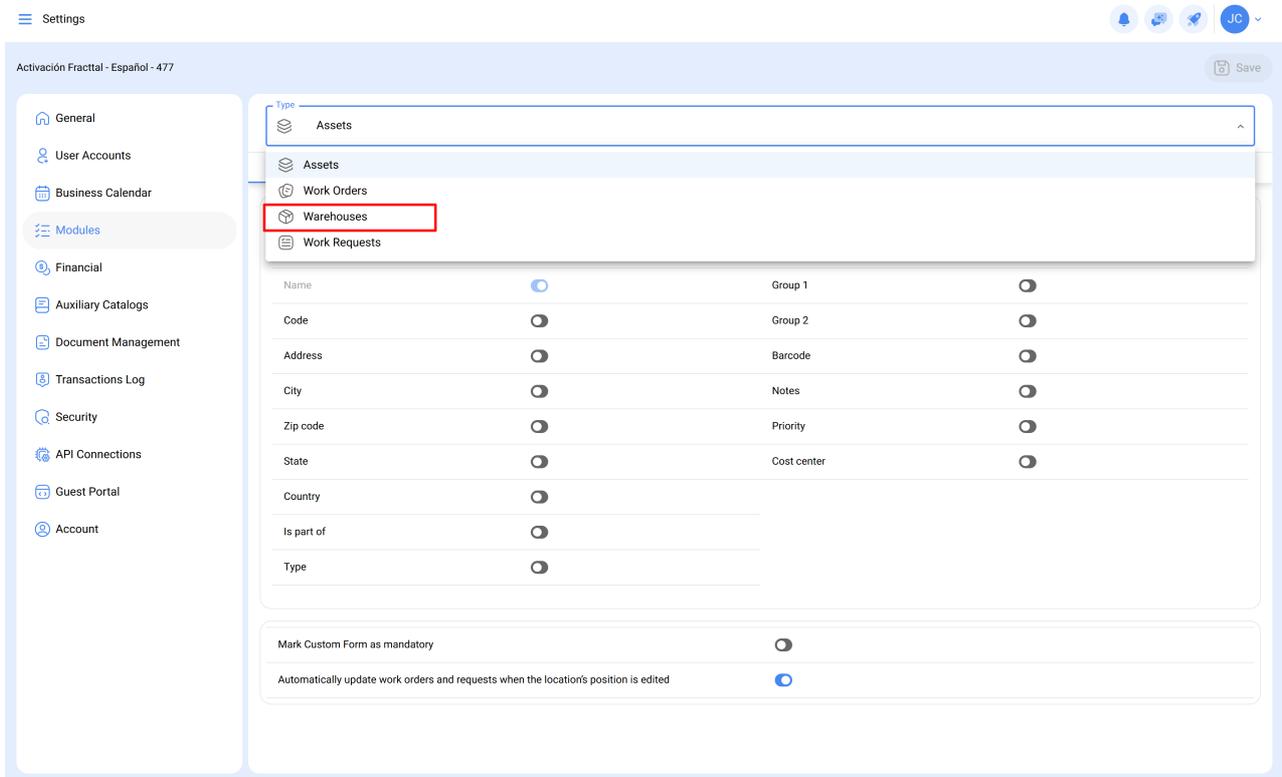

help.fractal.com/hc/fr/articles/25023050647693-Entrepôts

Pour accéder au module **Entrepôts** dans **Fractal One**, suivez ces étapes :

Cliquez sur l'icône du **Menu principal** située en haut à gauche de la barre principale.

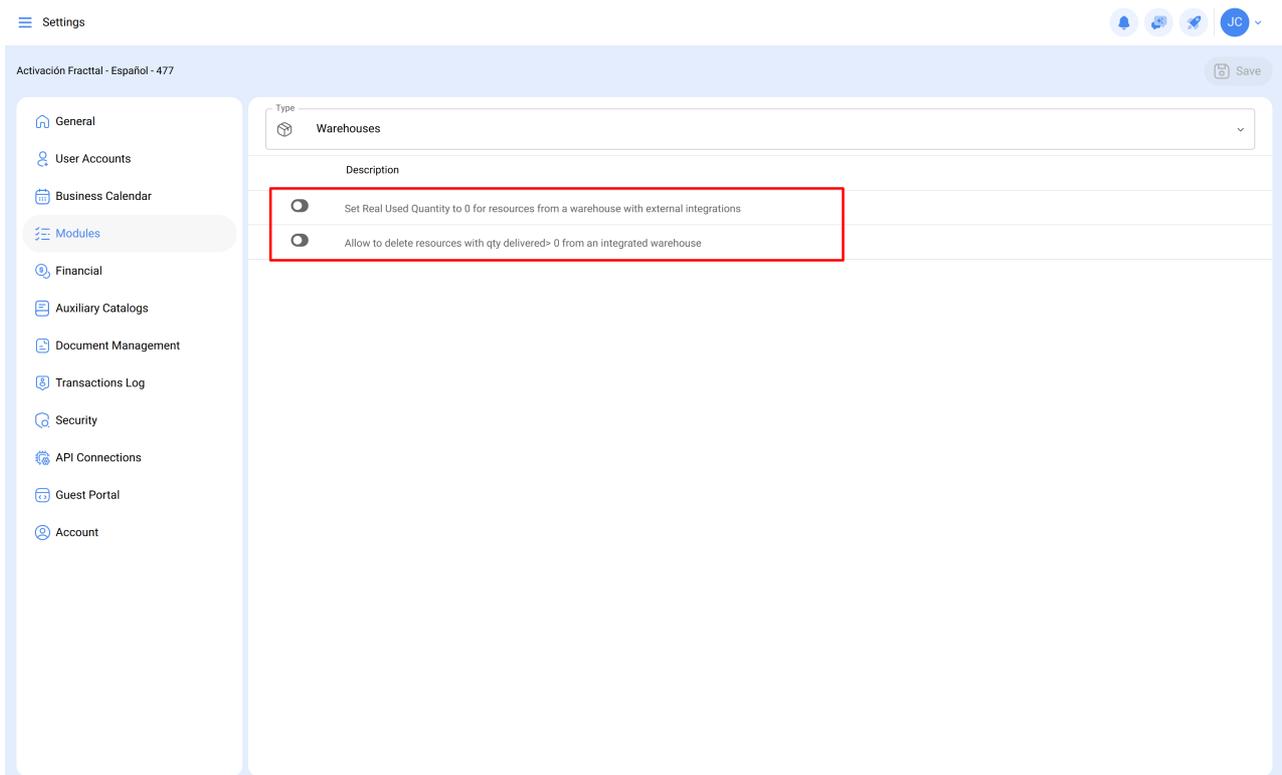

Dans le panneau du menu principal qui s'affiche à gauche, sélectionnez **Entrepôts** pour accéder au module correspondant.

The screenshot shows the 'Assets' settings page. On the left, a navigation menu lists various system settings, with 'Modules' highlighted. The main content area is titled 'Assets' and features a dropdown menu with 'Warehouses' selected and highlighted by a red box. Below the dropdown is a table of settings for 'Assets' with columns for Name, Code, Address, City, Zip code, State, Country, Is part of, Type, Group 1, Group 2, Barcode, Notes, Priority, and Cost center. Each setting has a toggle switch. At the bottom, there are two additional settings: 'Mark Custom Form as mandatory' (disabled) and 'Automatically update work orders and requests when the location's position is edited' (enabled).

Ce module vous permettra de gérer efficacement les ressources et matériaux, facilitant ainsi le contrôle des stocks au sein de la plateforme.

The screenshot shows the 'Warehouses' settings page. On the left, the navigation menu is the same as in the previous screenshot. The main content area is titled 'Warehouses' and features a dropdown menu with 'Warehouses' selected and highlighted by a red box. Below the dropdown is a table of settings for 'Warehouses' with a 'Description' column. Two settings are highlighted with a red box: 'Set Real Used Quantity to 0 for resources from a warehouse with external integrations' and 'Allow to delete resources with qty delivered > 0 from an integrated warehouse'. Both settings have toggle switches.

Dans cette section, les configurations liées au module '**warehouses**' de Fractal One sont effectuées :

- ***Mettre ou non la quantité réelle utilisée à zéro pour les ressources provenant d'un entrepôt intégré.***
- ***Autoriser ou non la suppression des ressources dont la quantité livrée est supérieure à zéro en provenance d'un entrepôt intégré.***
