- Work Requests

Name	<input checked="" type="checkbox"/>	Group 1	<input type="checkbox"/>
Code	<input type="checkbox"/>	Group 2	<input type="checkbox"/>
Address	<input type="checkbox"/>	Barcode	<input type="checkbox"/>
City	<input type="checkbox"/>	Notes	<input type="checkbox"/>
Zip code	<input type="checkbox"/>	Priority	<input type="checkbox"/>
State	<input type="checkbox"/>	Cost center	<input type="checkbox"/>
Country	<input type="checkbox"/>		
Is part of	<input type="checkbox"/>		
Type	<input type="checkbox"/>		

Mark Custom Form as mandatory:

Automatically update work orders and requests when the location's position is edited:

This module allows you to efficiently manage resources and materials, making it easier to control inventory within the platform.

In this part, settings linked to the Fractal One 'warehouses' module are performed:

- ***Set or not the real used quantity to zero for resources coming from an warehouse with external integrations.***
- ***Allow or disallow to delete resources with delivered quantity greater than zero coming from an integrated warehouse.***
