

Does Fracttal offer training on how to use the system?

 help.fracttal.com/hc/en-us/articles/38100011407373-Does-Fracttal-offer-training-on-how-to-use-the-system

Yes! At Fracttal, we have multiple official resources to train users on how to use the **Fracttal One** platform and on key topics of maintenance and asset management. Our priority is to ensure that your team can adopt the system efficiently and with a solid knowledge base.

Fracttal Academy - Free, structured, and certified training

You will find free online courses not only on how to use Fracttal One but also on key topics such as maintenance, IoT, digital transformation, PCM, asset management, and more. The content is available in Spanish and Portuguese and is tailored to different technical and administrative profiles.

Course “Get Certified in Fracttal One”

This free course, open to the public, is conducted in a group format and has quarterly editions (subject to change). Through a series of **5 webinar sessions**, the essential modules of Fracttal One are covered, providing a practical and comprehensive view from the fundamentals to the most used features.

Upon completion, participants receive an **official completion certificate** awarded by Fracttal.

You can also access the recorded version of the course and review the modules at your own pace.
