

# Analysis of Planned Task Compliance in Fracttal One

---

 [help.fracttal.com/hc/en-us/articles/40962922787085-Analysis-of-Planned-Task-Compliance-in-Fracttal-One](https://help.fracttal.com/hc/en-us/articles/40962922787085-Analysis-of-Planned-Task-Compliance-in-Fracttal-One)

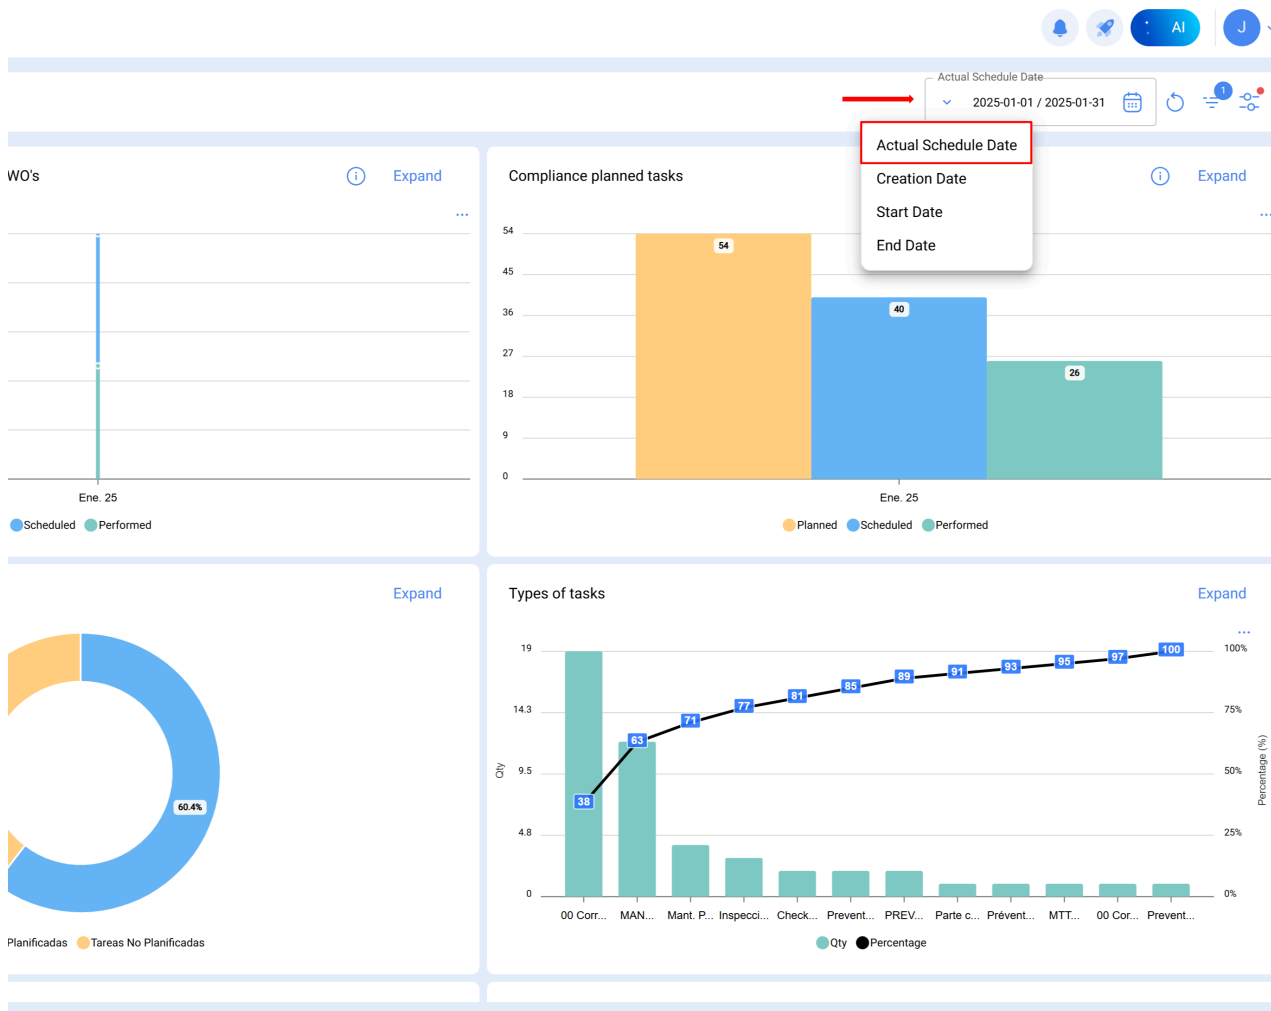

The analysis of task compliance in Fracttal One is carried out through monthly charts. If the query range covers several months, the analysis must be performed individually for each month.

- The total number of **planned** tasks during the month (**Planned**).
- The number of tasks that were sent to a Work Order (WO) during the same month they were planned (**Scheduled**).
- The **number of tasks completed in finalized WOs** during the same month they were planned (**Performed**).

It is important to note that the charts are **monthly**, so if the query range spans several months, the analysis must be done individually for each month.

**Note:** To obtain the accurate reference for the analyzed period, the **actual scheduled date** filter must be applied.

Below is a practical example of the analysis conducted for January 2025:

*\*Filter applied: Actual scheduled date\**

## Procedure

### Select the month for analysis

Once the range is defined in the technical analysis module, Fractal automatically generates the corresponding chart, with the columns **Planned**, **Scheduled**, and **Performed**.

## Planned Column:

Represents the total number of **planned** tasks for the analysis month.

The calculation considers:

- **Pending tasks scheduled in January** (planned to be executed that month).
- **Tasks in WOs in process, review, or completed** with creation dates prior (for example, October).
- **Unstarted tasks** in completed WOs created in the same month (subtracted from the total).

The **planned tasks** for January are calculated as follows:

## Result = 54 planned tasks

This information can be queried through the **pending tasks** view, in the **Tasks > Work Orders** module.

Filters applied:

**Planned tasks:** Yes

**Actual Scheduled date:** From January 1 to 31

All unstarted tasks in closed WOs, scheduled in January and with WO creation date in January.

Filters applied:

**Planned tasks:** Yes

**Actual Scheduled date:** From January 1 to 31

**Start date:** From January 1 to 31

**Task status:** Not started

**WO creation date:** From January 1 to 31

**End Date:** From January 1 to 31

12/13

The screenshot displays the 'Work Management - Work Orders' application interface. At the top, there is a navigation bar with a hamburger menu, the text 'Work Management Work Orders', a search bar, and several icons including a bell, a speech bubble, a document, and a user profile. Below the navigation bar is a filter bar containing several filter items: 'Planned Tasks : Yes', 'Actual Schedule Date: Jan 1 - Jan 31', 'WO Creation date: Jan 1 - Jan 31', 'Start date: Jan 1 - Jan 31', 'End Date: Jan 1 - Jan 31', and 'Task Status: Not Started'. The main content area is empty, displaying a message 'No data to show with these parameters' accompanied by a blue folder icon with a dashed line and a dot. At the bottom left, a status bar indicates 'Showing 0 of 0'.

**Total = 0**

**26 = 26 completed tasks in January**
