Son estructuras de apoyo que definen tipos, clasificaciones y parámetros utilizados en diferentes registros de la plataforma. Su función es garantizar uniformidad en el llenado de información y optimizar el análisis y la trazabilidad de los datos.

The screenshot shows the Fracttal platform interface. On the left, a sidebar lists various modules: General, User Accounts, Business Calendar, Modules, Financial, Auxiliary Catalogs (which is highlighted with a red arrow), Document Management, Transactions Log, Security, API Connections, Guest Portal, and Account. The main content area is titled 'Catalogue of Failures' and shows a list of 'Failure Types' under a 'Type' dropdown. A red box highlights this list, which includes: Catalogue of Failures, Extra hours, Assets, Cause of task rescheduling, Unit, Warehouses, Cost center, Budgets, Work Management, Compliance and Security, Inhouse Personnel, Third Parties, Fracttal Sense, Work Orders, Work Requests, Purchase Requests, ISO coding, and Connections.
