São estruturas de apoio que definem tipos, classificações e parâmetros utilizados em diferentes registos da plataforma. A sua função é garantir uniformidade no preenchimento da informação e otimizar a análise e a rastreabilidade dos dados.

The screenshot shows the Fracttal platform interface. On the left, there is a sidebar with various menu items: General, User Accounts, Business Calendar, Modules, Financial, Auxiliary Catalogs (which is highlighted with a red arrow), Document Management, Transactions Log, Security, API Connections, Guest Portal, and Account. The main content area is titled 'Catalogue of Failures' and shows a list of 'Failure Types'. A red box highlights this list, which includes: Catalogue of Failures, Extra hours, Assets, Cause of task rescheduling, Unit, Warehouses, Cost center, Budgets, Work Management, Compliance and Security, Inhouse Personnel, Third Parties, Fracttal Sense, Work Orders, Work Requests, Purchase Requests, ISO coding, and Connections. The top right of the interface has a 'Fault Detection' section and some notification icons.
