

How to export data from Fracttal? – Help Center

help.fracttal.com/hc/en-us/articles/25065471244429-How-to-export-data-from-Fracttal

The platform allows you to export user selected information or perform a bulk export of all the data stored in the module:

How to Export selected information in Fracttal

To use this export option:

1. Enter the module from which you want to export the information and select the data you wish to export (this functionality is available in the majority of the platform modules).

The screenshot displays the Fracttal ONE dashboard interface. On the left, a navigation menu is visible with the following items: Start, Fracttal AI, Catalogs (highlighted with a red box), Assets (indicated by a red arrow), Inhouse Personnel, Third Parties, Warehouses, Work Management, Monitoring, and Dispatcher. The main dashboard area features several data visualization components: a top navigation bar with a search field labeled 'Is part of', a notification bell, a rocket icon, a mail icon, an 'AI' button, and a user profile 'JC'. Below the search bar, there are two large KPI cards: '55 Closed WOs' and '19 Pending Tasks with Delay'. A 'Work Orders' section contains a bar chart with three bars: 'WO...' (114), 'Finis...' (55), and 'Pe...' (59). At the bottom left, a donut chart shows '48.2%' compliance percentage. A 'Work Requests' section is partially visible at the bottom right.

2. Next, open the “additional options” menu.
