

What is a meter?

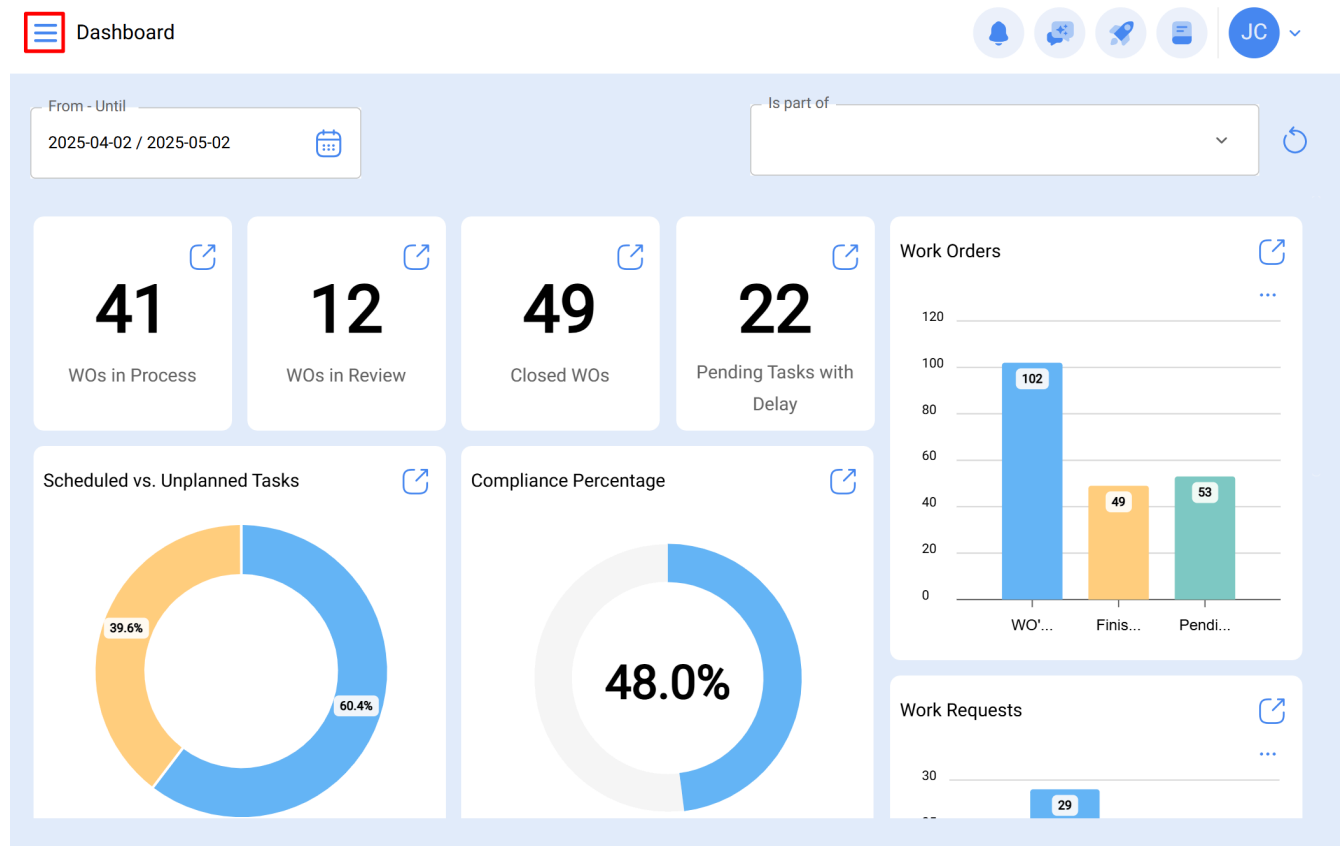

help.fractal.com/hc/en-us/articles/24943838388365-What-is-a-meter

A meter is an instrument or device that quantifies and records the value of a physical or chemical magnitude, such as the volume of a liquid or gas, the amount of electricity consumed, pressure, temperature, among others. These devices are essential for monitoring, controlling, and managing various processes in different industries.

In this module, you will have complete traceability of all meter readings associated with assets, along with the recording and control of the activation of linked tasks.

How to enter the meter module?

To access this module, you must first click on the menu button, which you'll find in the upper left corner of the platform's main bar, and display the Monitoring menu; the system will show you the various submodules.

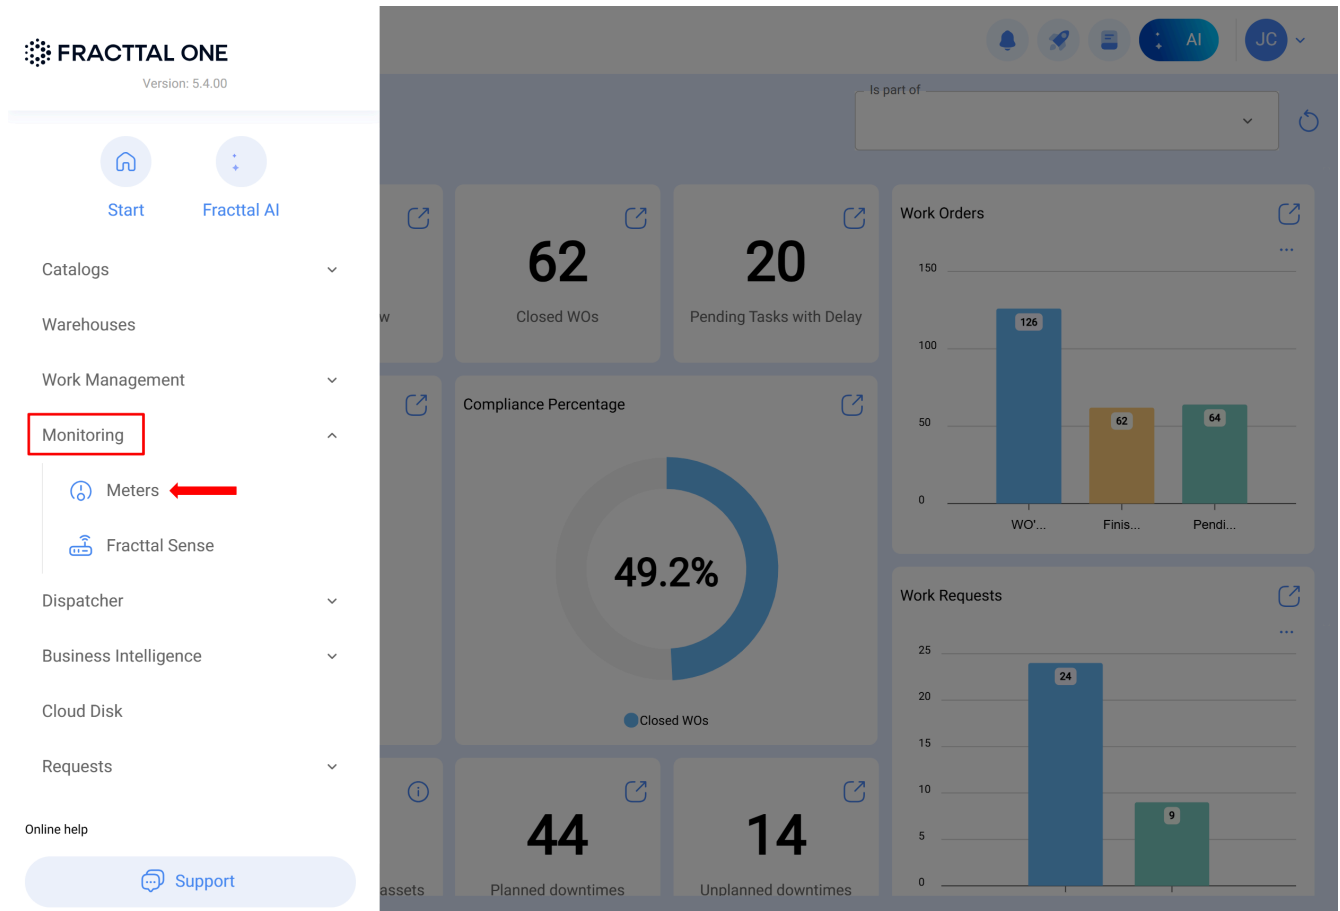

When you display the menu, you'll find the following submodules:

- **Meters**

- **Fractal Sense**

Then, when you just click on “Meters”, the system Will finally show you the meters that have been created in the system.

List Advanced

☐	Is part of	Description Sensor / Meter	Enabled	Serial
☐ 📺 📶 📡	MOTOR ELECTRICO { MOT-ELEC }	MEDIDOR DE TEMPERATURA	Yes	0
☐ 📺 📶 📡 🔁	ADAPTEC Banda transportadora FU { EQ-EM-BT-001 }	Odometro	Yes	
☐ 📺 📶 📡	ADAPTEC Banda transportadora FU { EQ-EM-BT-001 }	MEDIDOR DE AMPERAJE	Yes	
☐ 📺 📶 📡	Belt conveyor { BT-003 }	MEDIDOR DE AMPERAJE	Yes	
☐ 📺 📶 📡 🔁	Belt conveyor { BT-003 }	MEDIDOR DE KM	Yes	
☐ 📺 📶 📡	ATLAS COPCO HORNO 02 { HOR-02 }	SI(0)/NO(1)	Yes	0
☐ 📺 📶 📡 🔁	RTU CORTADORA DE COMFORT { COR-COM-01 }	MEDIDOR DE UNIDADES PRODUCIDAS	Yes	
☐ 📺 📶 📡 🔁	MERCEDEZ BENZ CAMIONETA DMAX { DMAX-01 }	Odometro 3 DMAX-01	Yes
