In this submodule, you can register the main data of your own company, such as:

- **Code:** Fiscal identifier of your company.
- **Name:** The name of your company.
- **Email:** Main email address of your company.
- **Currency:** Main currency in which your company conducts its transactions.
- **Address, City, Department / State / Region, Country, Area Code:** Data of your company's main address.
- **Latitude, Longitude:** Geolocation of your company (also, Google Maps can be used to find your company's geolocation).
- **Main Phone, Secondary Phone, SMS Phone:** Phones associated with your company.
- **Language:** Main and default language of your database. You must choose among the available options: *(English (US), Spanish, Portuguese (BR), Portuguese (PT), and French)*. It is important to define the language, since notifications sent by the platform and their language may vary accordingly.

- **Inventory Valuation:** Method by which the total costs of the items in your warehouses are weighted and calculated.
- **Website:** Your company's website.
- **Logo:** Logo or image representing your company; this image will be reflected on all printed system documents (such as work orders, asset sheets, purchase orders, etc.).
