

Import data on Fractal

help2.fractal.com/hc/en-us/articles/24784307858701-Import-data-on-Fractal

In Fractal One, you can import your initial information massively through predefined Excel spreadsheets in the following modules:

- **Assets** (applies to all types of assets)
- **Human Resources**
- **Third Parties**
- **Warehouses** (valid only for the initial import of stocks)

Download Import Spreadsheets

The screenshot displays the 'Equipment' module in Fractal One. At the top, there is a search bar and navigation options like 'Old Version', 'FE', and a plus icon. Below the search bar, there are tabs for 'List' and 'Treemap'. The main area contains a table of equipment assets with columns for 'Description', 'Enabled', 'Out of Service', 'Code', and 'Group 1'. A dropdown menu is open on the right side of the table, with the 'Import' option highlighted by a red box. Other options in the menu include 'Open PDF', 'Export', 'Bulk export data', 'Print QR', 'Delete Imported Data', 'Fields Configuration', 'Clone Asset', and 'Batch Edition'. At the bottom left, it says 'Showing 50 of 2993' and at the bottom right, there is a blue plus icon.

Description	Enabled	Out of Service	Code	Group 1
