Fractal Hub, an innovative tool integrated in Fractal One 5.0, has as its main objective the seamless integration of various applications, allowing efficient bidirectional communication with our platform.

To connect Fractal Hub, follow these steps:

- 1.Set up connection to Google Sheet
- 2.Configuration in auxiliary catalogs
- 3.Create a Fractal Hub permission group
- 4.Create consumers for Fractal Hub
- 5.ETL configuration from Fractal Hub
