

Is it possible to upload maintenance plans from an Excel file? – Help Center

 help.fracttal.com/hc/en-us/articles/41240328308621-Is-it-possible-to-upload-maintenance-plans-from-an-Excel-file

No. Maintenance plans must be created manually within Fracttal One, including their tasks, frequencies, and configurations.

Once the plan is created, it is possible to link assets in bulk via the API or Fracttal Hub, as long as the tasks are not associated with meters.

For more details on linking, see: [**How to link an asset to a maintenance plan from Fracttal Hub?**](#)
