

¿Cómo crear un equipo usando Fractal Hub? – Centro de Ayuda

help.fractal.com/hc/es-es/articles/37609623465229--Cómo-crear-un-equipo-usando-Fractal-Hub

La integración con Fractal Hub facilita la incorporación controlada de nuevos equipos a la plataforma, garantizando que los datos sigan una estructura estandarizada. Esta guía explica cómo configurar un flujo seguro para crear equipos en Fractal One utilizando una hoja de cálculo como origen de datos.

La conexión se establecerá utilizando una **Cuenta de Servicio** (Service Account) de Google Cloud Platform, que es el método recomendado para integraciones de servidor a servidor, garantizando seguridad y autonomía.

Etaapa 1: Configuración en Google Cloud Platform (GCP)

El primer paso es crear las credenciales necesarias en la plataforma de Google para permitir que Fractal One acceda a su hoja de forma segura.

1.1. Accede a la cuenta de servicio

Acceda a la Consola de Google Cloud Platform.

Se descargará automáticamente un archivo `.json` en su equipo. Guárdelo en un lugar seguro, ya que contiene las credenciales de acceso y será necesario en la Etapa 3.

Etapa 2: Preparación de la hoja de Google Sheets

Ahora prepararemos la hoja que servirá como fuente de datos.

Abra su hoja de Google Sheets.

Estructura de los encabezados:

En la primera fila, asegúrese de que los nombres de las columnas coincidan exactamente con los parámetros requeridos por la API de Fractal para la creación de activos. Los campos obligatorios son:

- `code`: Código único del activo.
- `id_type_item`: ID numérico del tipo de activo (por ejemplo: `2` para Equipos, según la documentación de la API).
- `field_1`: Corresponde al **Nombre** del activo.

<code>code</code>	<code>id_type_item</code>	<code>field_1</code>
HUB-001	2	CAMIONETA SUV

Compartir la hoja:

Es crucial otorgar permiso de acceso a la Cuenta de Servicio que creamos.

En GCP, copie el correo electrónico de su cuenta de servicio.

- **Tipo:** Seleccione **Google Sheet (Service Account)**.
- **Descripción:** Ingrese un nombre claro para esta conexión, por ejemplo, **CREAR EQUIPOS**.

Completa las credenciales:

Abra el archivo **.json** descargado en la Etapa **1.2** y copie y pegue el contenido de cada campo en el formulario de Fracttal One:

The screenshot shows the 'Settings' page in Fracttal One, specifically the 'Connections' section. On the left, there is a sidebar menu with various settings categories. The main area displays a list of existing connections with columns for 'Description' and 'Type'. On the right, a form is open for adding a new connection. The form has several fields, with four of them highlighted in red to indicate they are required: 'private_key *', 'client_email *', 'client_id *', and 'client_x509_cert_url *'. Below these are fields for 'auth_uri', 'token_uri', and 'auth_provider_x509_cert_url', each with a corresponding URL.

4.1. Configurar la Fuente (Source)

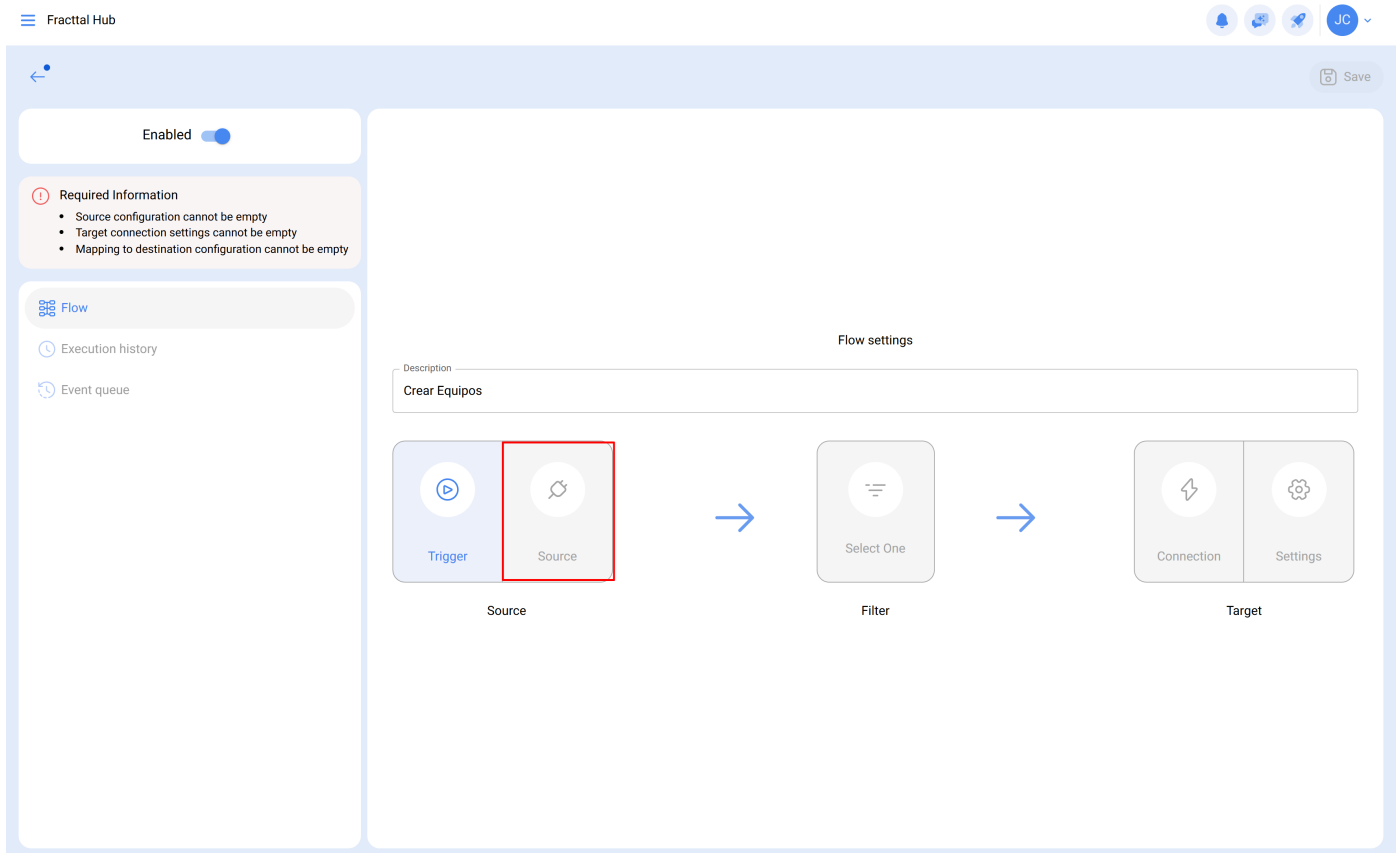

Activador

The screenshot shows the 'Activador' configuration page in Fractal Hub. On the left sidebar, there is a navigation menu with 'Flow', 'Execution history', and 'Event queue'. The main area is titled 'Flow settings' and contains a description field with the text 'Crear Equipos'. Below this, a flow diagram is displayed with three stages: 'Source', 'Filter', and 'Target'. The 'Source' stage has two options: 'Trigger' (highlighted with a red box) and 'Source'. The 'Filter' stage has one option: 'Select One'. The 'Target' stage has two options: 'Connection' and 'Settings'. Arrows indicate the flow from Source to Filter to Target. At the top left, there is an 'Enabled' toggle switch. At the top right, there are notification and user profile icons. A 'Save' button is located in the top right corner of the main area.

Para este ejemplo, seleccione **Manual**. Esto le permite ejecutar el flujo cuando lo desee.

Fuente:

- **Módulo:** Seleccione **GoogleSheet**.
- **Conexión:** Seleccione la conexión creada en la Etapa 3 (**CREAR EQUIPOS**).
- **Acción:** Seleccione **Leer**.
- **spreadsheet_id:** Pegue el ID de su hoja. Lo puede encontrar en la URL (el código largo entre **/d/** y **/edit**).
- **sheet:** Ingrese **0** para leer la primera pestaña (la numeración comienza en 0).
- **Campos:** Agregue los nombres de los encabezados de su hoja (**code**, **id_type_item**, **field_1**).

The screenshot displays the Fractal Hub interface. On the left, there is a sidebar with an 'Enabled' toggle, a 'Required Information' section with a warning, and a 'Flow' section with 'Execution history' and 'Event queue' links. The main workspace shows a flow diagram with a 'Source' block (containing 'Trigger' and 'Source' sub-blocks) and a 'Filter' block (containing 'Select One'). A settings panel on the right is highlighted with a red box and contains the following configuration:

- Module:** GoogleSheet
- Connection:** Conexión Google Sheet
- Action:** Read
- spreadsheet_id:** <https://www.googleapis.com/robot/v1/metadata/x509/crear>
- sheet:** 0
- Fields:**
 - Name: code, Type: Text
 - Name: id_type_item, Type: Text
 - Name: field-1, Type: Text

4.2. Configurar el Destino (Destination)

Conexión:

The screenshot shows the Fractal Hub interface for configuring a flow. The top navigation bar includes the Fractal Hub logo and user profile. The main content area is titled 'Flow settings' and contains a description field with the text 'Crear Equipos'. Below the description, the flow is visualized as a sequence of three steps: Source, Filter, and Target. The Source step has two options: Trigger and Source. The Filter step has one option: Select One. The Target step has two options: Connection and Settings. The 'Connection' option in the Target step is highlighted with a red box. On the left side, there is a sidebar with an 'Enabled' toggle, a 'Required Information' section with a warning message, and a 'Flow' section with links to 'Execution history' and 'Event queue'.

- **Módulo:** Seleccione **Fractal**.
- **Conexión:** Seleccione **FRACTTAL HUB**.
- **Acción:** Seleccione **Actualizar** o **crear un activo**.

The screenshot shows the Fractal Hub configuration interface. On the left, there is a sidebar with an 'Enabled' toggle, a 'Required Information' section with a warning 'Target connection settings cannot be empty', and a 'Flow' section with 'Execution history' and 'Event queue' links. The main area displays a flow diagram with a 'Source' block containing 'Trigger' and 'Source' components, and a 'Filter' block containing 'Select One'. A 'Target' settings panel is open on the right, showing 'Module' set to 'Fractal', 'Connection' set to 'FRACTAL HUB', and 'Action' set to 'Update or create an asset'. A red box highlights the 'Target' settings panel.

Configuración

The screenshot shows the Fractal Hub configuration interface with a 'Save' button in the top right. The flow diagram now includes a 'Target' block containing 'Connection' and 'Settings' components. A red box highlights the 'Target' block. The 'Information' section in the sidebar indicates 'You have pending changes to save!'.

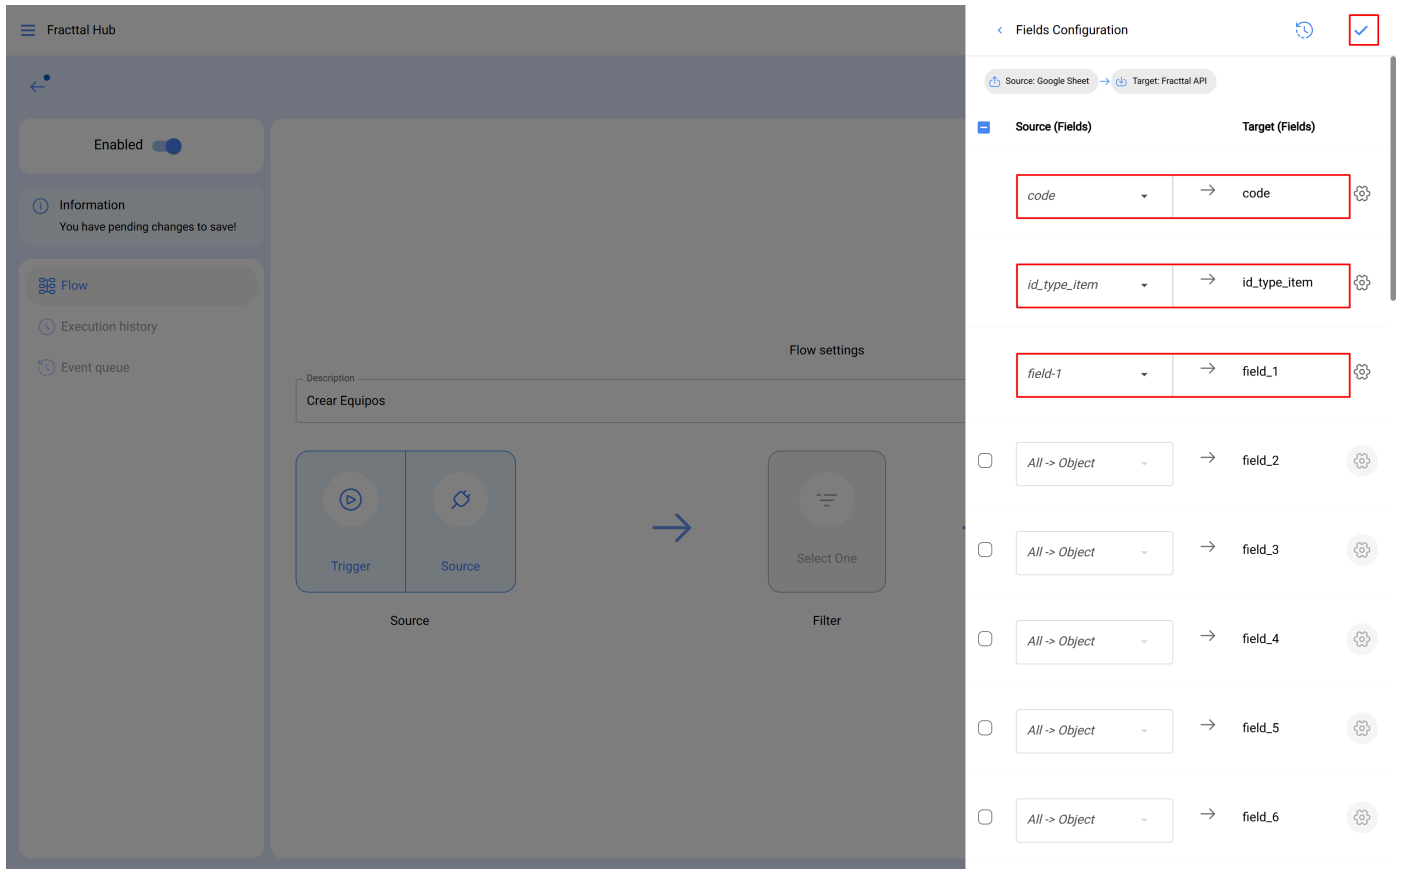

- Haga clic en el ícono de engranaje (Configuración).
- Mapee los campos de origen (Google Sheet) con los de destino (API de Fractal), asegurándose de que coincidan:

The image shows the Fractal Hub interface. On the left, there is a sidebar with navigation options: 'Enabled' (toggle), 'Information' (You have pending changes to save!), 'Flow' (with a sub-menu icon), 'Execution history', and 'Event queue'. The main area is titled 'Flow settings' and contains a description 'Crear Equipos'. Below the description, there is a visual representation of a flow: a 'Source' block containing 'Trigger' and 'Source' sub-blocks, followed by an arrow pointing to a 'Filter' block labeled 'Select One'.

On the right, the 'Fields Configuration' panel is open, showing a mapping between 'Source (Fields)' and 'Target (Fields)'. The source is 'Google Sheet' and the target is 'Fractal API'. The mapping table is as follows:

Source (Fields)	Target (Fields)
All -> Object	code
All -> Object	id_type_item
All -> Object	field_1
All -> Object	field_2
All -> Object	field_3
All -> Object	field_4
All -> Object	field_5
All -> Object	field_6

Red arrows point from the 'code', 'id_type_item', and 'field_1' target fields back to their respective source dropdown menus. Each row also includes a checkbox on the left and a gear icon on the right for configuration.

Haga clic para guardar el mapeo y luego en **Guardar** en la esquina superior derecha para guardar todo el flujo.
