3. View warehouse stock:

In the selected warehouse view, you will find a side menu with several options. Click on Stock to check the available quantity of each item in that warehouse.

The screenshot shows the 'Warehouses' application interface. At the top, there is a navigation bar with 'Warehouses' and a hamburger menu icon. Below this, the selected warehouse is 'Abot Armazem'. A toggle switch for 'Enabled' is shown as 'Enabled'. A 'Total cost' of '\$ CLP 4.848.530,51' is displayed. A side menu on the left contains several options: 'General', 'Stock' (highlighted with a red arrow), 'Purchase orders', 'Material requisitions', 'Entries', 'Outgoings', and 'Movement History'. The main content area displays a table of inventory items with columns for 'Stock level' and 'Description'. The table is highlighted with a red border.

<input type="checkbox"/>	Stock level	Description

4. Filter specific items:

If you want to check the stock of a specific item, use the search filter by code, name, or category.

The screenshot shows the 'Warehouses' application interface. At the top, there are navigation icons and a user profile. The main content area is titled 'Abot Armazem' and includes a 'Save' button. A sidebar on the left contains navigation options: General, Stock (selected), Purchase orders, Material requisitions, Entries, Outgoings, and Movement History. The main table displays a list of items with columns for Stock level, Description, and Code. The total cost is shown as \$ CLP 4.848.530,51. A filter icon (three horizontal lines) is highlighted with a red box in the top right corner of the table area.

Stock level	Description	Code
<input type="checkbox"/>	Tornillos M6x100 { Ton-M6x10 }	Ton-M6x10
<input type="checkbox"/>	ACEITE 20 W 50 { ACE-001 }	ACE-001
