

¿Qué son los grupos de notificaciones y como agregarlos?

 help.fractal.com/hc/es-es/articles/24943591960461--Qué-son-los-grupos-de-notificaciones-y-como-agregarlos

Los grupos de notificaciones son un listado de correos electrónicos predefinidos que pueden ser usados para enviar notificaciones masivas según las reglas que se hayan definido.

Para agregar un grupo de notificaciones, se debe hacer clic en el botón “más” que encontrarás en la parte superior derecha del módulo de automatización y seleccionar la opción de “Grupo de notificaciones”.

The screenshot shows the 'Dispatcher' module interface. At the top, there is a search bar and several icons. Below the search bar, there is a table of notification groups. The table has columns for 'Module', 'Submodule', and 'Event'. A red box highlights the 'More' button (three dots) in the top right corner of the table, with a red arrow pointing to it. The table lists 26 notification groups, with the first few rows visible:

	Module	Submodule	Event
☐	Work Management	Work Orders	New WO
☐	Warehouses	Stock	The existence of an item is over the maximum level
☐	Work Management	Work Orders	Paused task
☐	Dispatcher	Fractal Hub	Error in process execution
☐	Work Management	Work Orders	Work order under review
☐	Work Management	Work Orders	Tasks expired in WO's
☐	Settings	Document Management	Expiry of a warranty
☐	Work Management	Work Orders	Tasks expired in WO's

Luego se abrirá una ventana para editar o modificar los grupos ya existentes (en caso de que existan) o agregar uno nuevo. En cuyo caso, solo se debe hacer clic en la opción de agregar o editar para visualizar los campos de descripción (nombre del grupo) y correos electrónicos de las personas que conforman a dicho grupo de notificaciones.
