

# Warehouses and how to access the module

[help2.fractal.com/hc/en-us/articles/25149743918349-Warehouses-and-how-to-access-the-module](https://help2.fractal.com/hc/en-us/articles/25149743918349-Warehouses-and-how-to-access-the-module)

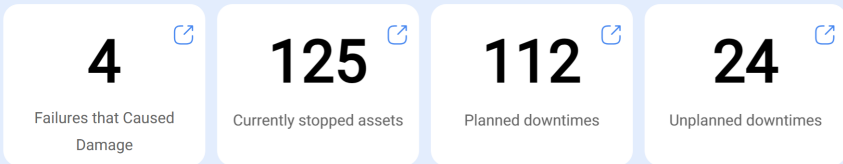

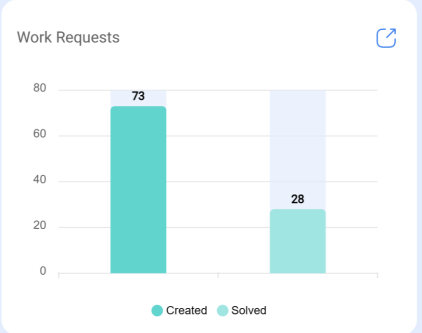

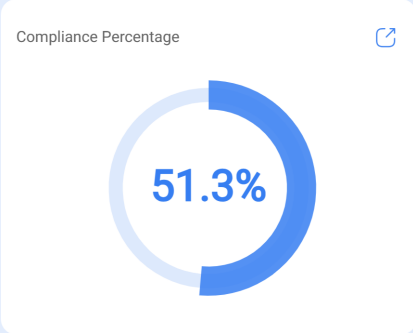

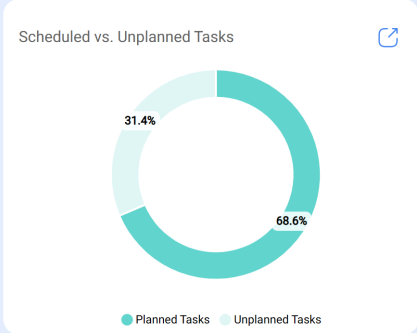

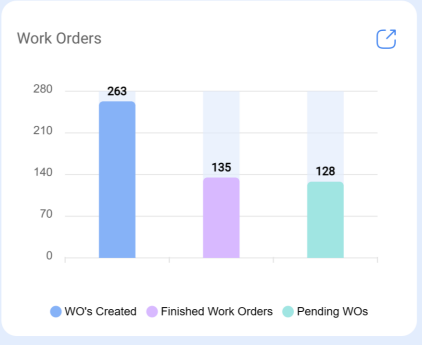

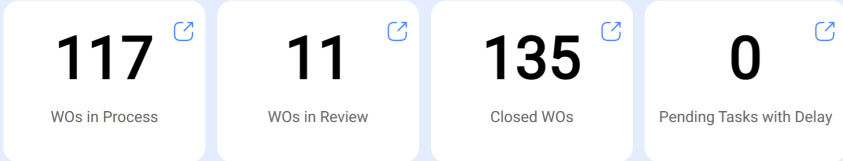

The Fractal Warehouse Management module allows the user to create multiple warehouses in a single platform. The stock and subsequent cost associated with each warehouse can be controlled independently.

## How to access the warehouses module?

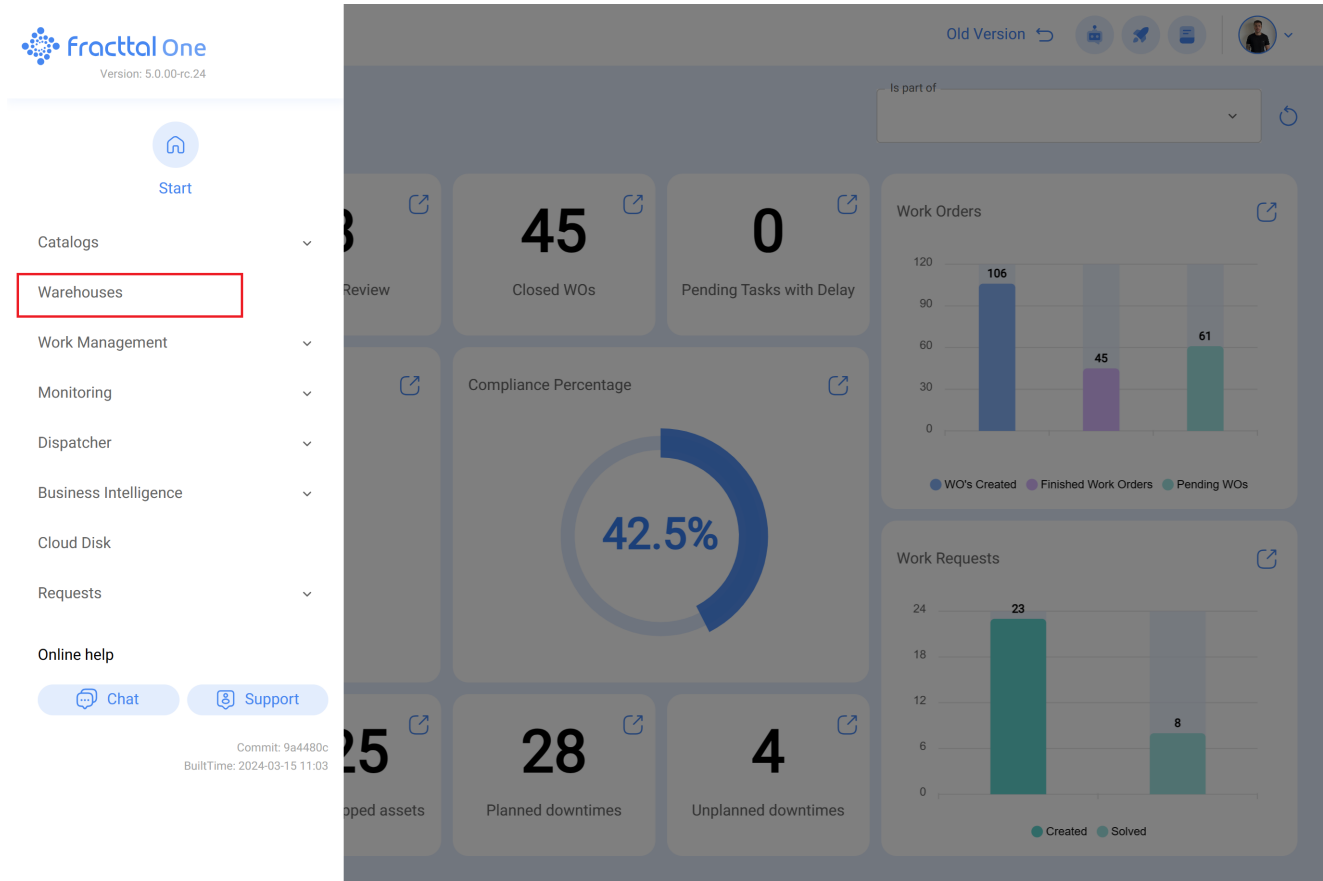

1. Click on the “Main Menu” icon located at the top left-hand side of the main bar.

From - Until  
2024-02-15 / 2024-03-15 

Is part of  

2. The main menu pane will appear on the left side of the screen displaying all the available system modules, select "Warehouses" to access the warehouse module.

3. The warehouses module will open in a new window. All the warehouses that have been previously created can be found in this module.
