

How to customize the printing of QR codes on label printers?

help2.fracttal.com/hc/en-us/articles/25156224335245-How-to-customize-the-printing-of-QR-codes-on-label-printers

With Fracttal, it is possible to print the QR code generated by the system for each asset, as detailed in the following article:

[How to print the QR code of an asset?](#)

However, if you require your label to have some type of customization (such as additional information or your own logo), there are label printers on the market that have their own software with which you can customize the label information to your liking.
