# How is Fracttal One commercialized?

Fracttal One is a software as a service (SaaS) that operates on an annual subscription model, tailored to the selected subscription plan.

By subscribing to Fracttal One, you save thousands of dollars in asset management and many thousands more, even millions, in preventing potential productivity losses resulting from unforeseen disruptions and shutdowns.

Additionally, Fracttal One has been specially designed for mobile devices and for employees who are working remotely therefore, user experience is extremely simple, easy to use and easy to implement.
