

Como criar grupos de permissões? – Central de Ajuda

help.fractal.com/hc/pt-br/articles/24930118533389-Como-criar-grupos-de-permissões

Para adicionar grupos de permissões no Fractal One, é necessário acessar a aba “**Permissões**” e posteriormente clicar na opção de adicionar, localizada no canto inferior direito da janela.

The screenshot shows the 'Activación Fractal' interface. On the left, a sidebar lists various settings: General, User Accounts (highlighted with a red arrow), Business Calendar, Modules, Financial, Auxiliary Catalogs, Document Management, Transactions Log, Security, API Connections, Guest Portal, Account, and Work Order Prints. The main content area is titled 'User Accounts' and has a 'Permissions' tab highlighted with a red box. Below the tab, there is a table with columns for 'Description', 'Note', and 'Read Only'. The table contains one entry: 'Administrator' with 'Default group permissions' in the note and 'No' in the 'Read Only' column. At the bottom right of the table area, there is a blue circular button with a white plus sign, highlighted with a red box. The top right of the interface shows a 'Save' button and user profile information (AI, JC).

Description	Note	Read Only
<input type="checkbox"/>	Administrator	Default group permissions No

Em seguida, abrirá uma nova janela onde deverá definir o nome que será atribuído ao grupo de permissões que deseja criar, bem como indicar se esse grupo corresponderá a uma conta somente leitura.

Por fim, clique em salvar para registrar o grupo de permissões criado.
