

# What information does a meter show?

[help.fracttal.com/hc/en-us/articles/24944466871053-What-information-does-a-meter-show](https://help.fracttal.com/hc/en-us/articles/24944466871053-What-information-does-a-meter-show)

To access a previously created meter, you just need to click on it to get the system to show you a new window with all the options offered, including:

Enabled ☒ General Dashboard Readings Alarms - Tasks Triggers Linked elements

- **General:** Tab where you'll find the basic information associated with the meter.
- **Dashboard:** Graphic panel where meter records can be quickly viewed, along with their average and accumulated values.
- **Readings:** Table where all the recorded readings are shown, the source of the reading and if the reading activated any task.
- **Alarms-Task Triggers:** Tab where you can view the readings that have activated tasks and their next activation date.
- **Linked elements:** Tab where you can see which plan the meter is associated to in detail, along with their respective triggers by reading and by subtasks.
