

How to delete imported data?

help2.fracttal.com/hc/en-us/articles/24909912562317-How-to-delete-imported-data

In order to delete data which has been imported:

1. Enter the module in which the import was made and open the “additional options” menu.

The screenshot shows the Fractal Assets Equipment module interface. At the top, there is a search bar and a navigation menu. Below the search bar, there is a table with columns: Description, Enabled, Out of Service, Code, Group 1, Hours of average daily use..., and Plan. The table contains 12 rows of data. In the top right corner of the table area, there is a red box highlighting the additional options menu icon (three vertical dots).
