

# How to set the date of the latest maintenance for the triggers by date?

[help2.fractal.com/hc/en-us/articles/24946921539981-How-to-set-the-date-of-the-latest-maintenance-for-the-triggers-by-date](https://help2.fractal.com/hc/en-us/articles/24946921539981-How-to-set-the-date-of-the-latest-maintenance-for-the-triggers-by-date)

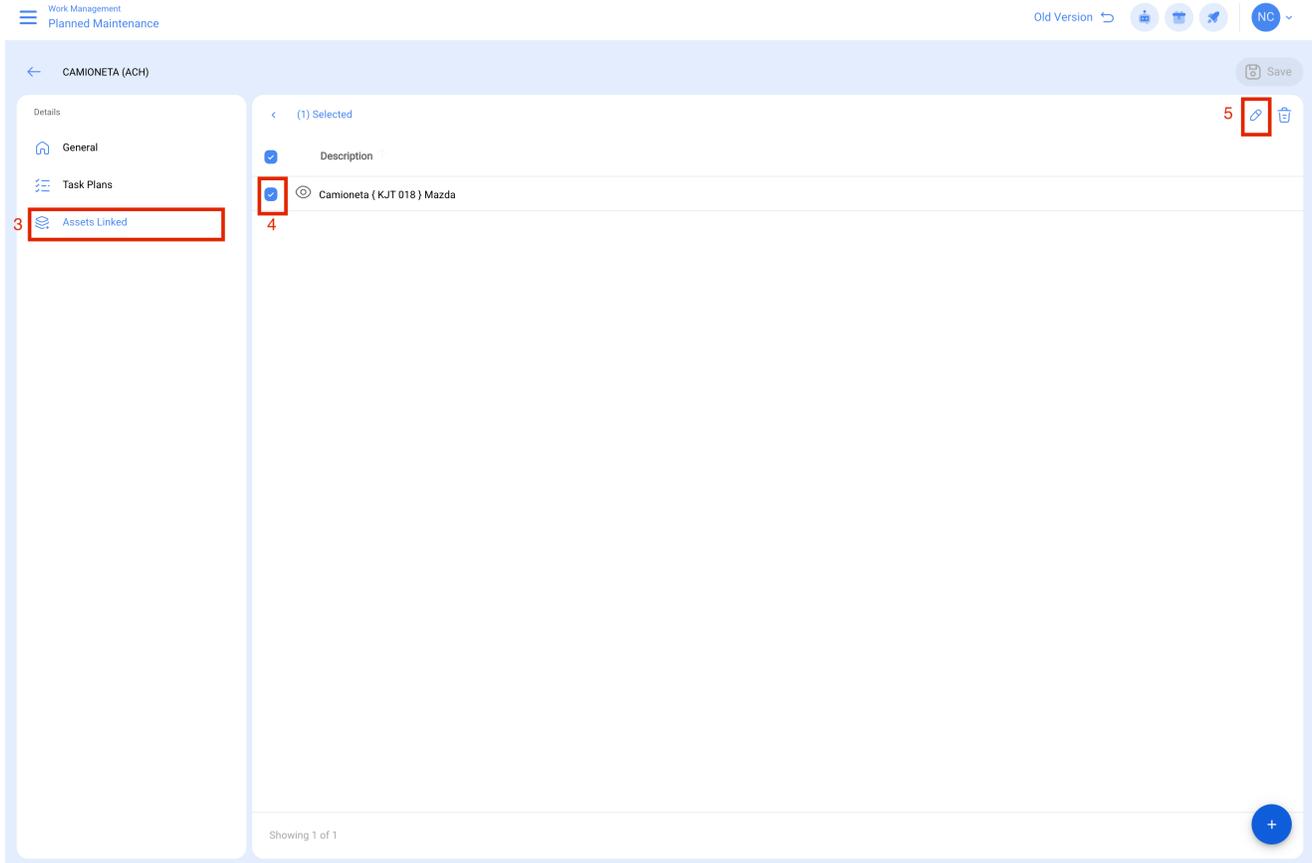

This option is ideal, since it allows you to independently set the next activation dates for each of the tasks associated with a plan, based on the dates on which the last maintenance of the asset in question was performed.

To do this, you must first go to the "Linked Assets" tab to select the asset for which you wish to set the dates of its last maintenance for the activation of the next tasks (this procedure can be performed independently for each of the assets associated with the plan).

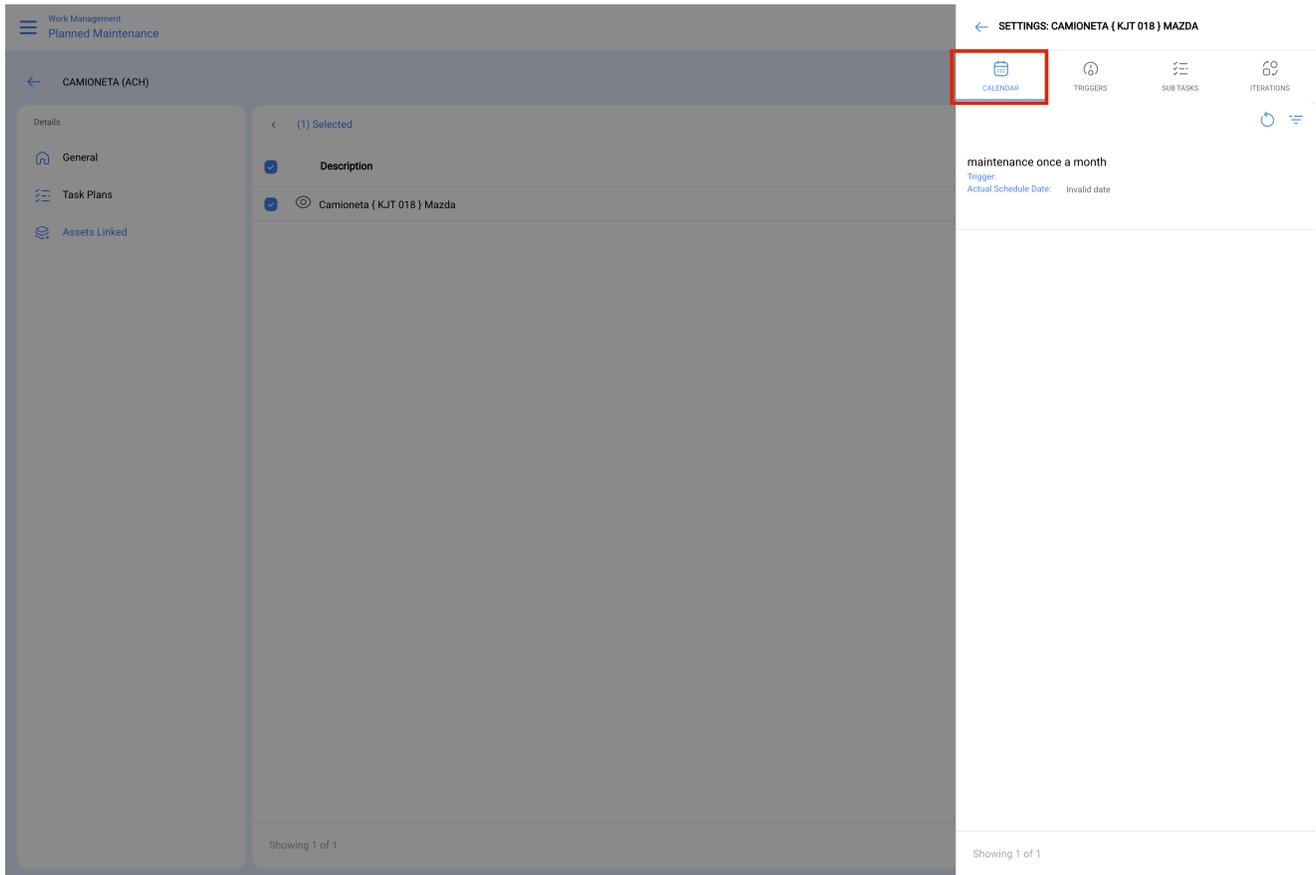

The screenshot shows the 'Planned Maintenance' section of the Fractal Work Management system. At the top, there is a search bar and navigation options like 'Old Version'. Below, a table lists various maintenance plans. The 'CAMIONETA (ACH)' row is selected, indicated by a blue checkmark in a red-bordered box. The table has four columns: Description, Linked Tasks, Linked Assets, and Limit Access to this location. The 'CAMIONETA (ACH)' row shows 2 linked tasks and 1 linked asset. The 'Limit Access to this location' column contains the text '// Mundo de Felipe Agudelo/ ALMACENES CENTRAL HUACHIPA/'.

Description	Linked Tasks	Linked Assets	Limit Access to this location
<input type="checkbox"/> Alfredo- Camioneta & Equipos	6	3	// Mundo de Alfredo/
<input checked="" type="checkbox"/> CAMIONETA (ACH)	2	1	// Mundo de Felipe Agudelo/ ALMACENES CENTRAL HUACHIPA/
<input type="checkbox"/> Mantenimiento Camionetas	2	1	//
<input type="checkbox"/> Mto.Mensual de computadores	1	0	// Banco Popular/ Oficinas/ Rionegro/ CAMIONETA/ Oficina central
<input type="checkbox"/> nuevo plan de prueba	1	1	// Banco Popular/ Oficinas/ Rionegro/ CAMIONETA/ Oficina central
<input type="checkbox"/> Plan Camioneta Pruebas (CDP001) Felipe	3	1	//
<input type="checkbox"/> Plan camionetas	21	2	// Mundo de Alfredo/
<input type="checkbox"/> PLAN DE MANTENIMIENTO CAMIONETA DMAX	0	1	//
<input type="checkbox"/> PLAN DE MANTENIMIENTO CAMIONETA PCO 26082022	4	1	//
<input type="checkbox"/> PLAN DE MANTENIMIENTO CAMIONETAS	3	1	// CARACOL TV/ SEDE LA FLORESTA/
<input type="checkbox"/> Plan de mantenimiento camioneta Tracker	4	2	// Mundo de Jose Ivan/
<input type="checkbox"/> Plan de mantenimiento de camionetas Toyota	1	0	// Mundo de Felipe Agudelo/ CONSTRUCTORA JC/
<input type="checkbox"/> PLAN PUENTE GRUA (CLIENTE DUMOCRANES)	0	0	// Banco Popular/ Oficinas/ Rionegro/ CAMIONETA/ Oficina central

When you click on edit, a new window will open in which all the task configuration tabs will appear (Calendars, Triggers, Subtasks, Iterations), in which case you should select the calendar tab where all tasks with a trigger by date will be displayed.

Then, just select the task in question and the system will display a window where you can modify the date of the last maintenance and the date of the next activation for the task. Finally, after making the modification, click on the "Save" button to make the changes.

**Note:** It is important to mention that the configuration and modification of the dates of the last maintenance can be performed as long as the asset recently linked to the plan does not have a work order associated to the task to be modified, otherwise the modification will not be possible, since the next execution will be governed by the maintenance performed in the work order already issued.
