Time

Estimated Duration: 00:10:00

Start Date: ---

End Date: ---

Actual Duration: 00:00:00

Time out of service : 00:00:00

Trigger

Non Scheduled Tasks

Event date

2021-09-29 16:59

Failures Information

Has the asset failed?

 START

 LOG

Within this option, we will find a plus symbol on the lower right that, once pressed, will allow us to register manually the date and time of both the start and end points of our work order.

< Task: Paint work to be done

Total: 0 

No data to show with these parameters

Once our dates and hours have been registered, we must click on the “Save and Finish” button shown on the bottom right. Then, when returning to the starting window of the WO, we will notice that the initial and final dates have registered successfully.
