help.fractal.com/hc/pt-br/articles/24916719037709-Fuso-horário-UTC

O **Fractal One** utiliza fusos horários respaldados pela IBM e verificados com a ISO 8601 para garantir a precisão na gestão de ativos e tarefas.

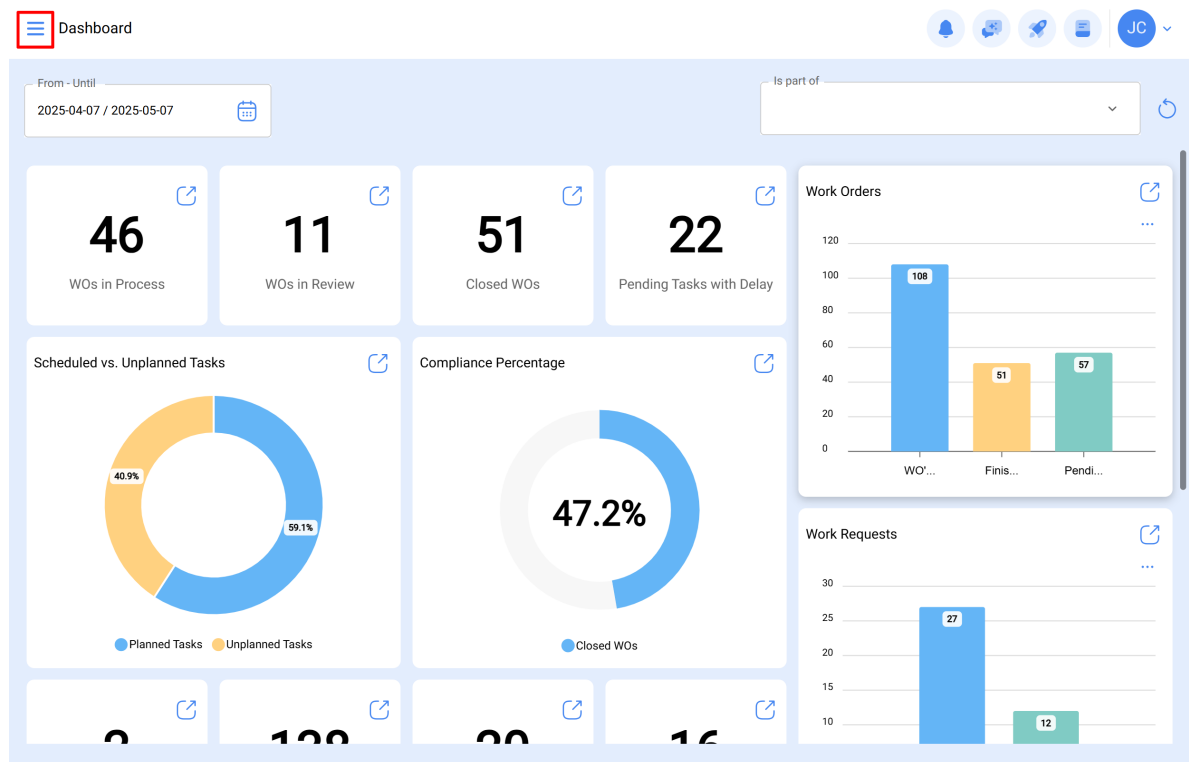

A plataforma permite que os usuários personalizem seu fuso horário de acordo com uma lista fornecida. Essa configuração é essencial para assegurar que as datas das tarefas planejadas sejam calculadas corretamente e evitar erros na criação de tarefas.

A seleção do fuso horário adequado às necessidades individuais assegura a precisão na gestão de ativos e tarefas, considerando diferentes localizações e fusos horários.
