

Bulk Import of Information in Fractal One – Help Center

help.fractal.com/hc/en-us/articles/24784307858701-Bulk-Import-of-Information-in-Fractal-One

In Fractal One you can import your initial information in bulk through predefined Excel templates in the following modules:

- **Assets** (applies to all types of assets)
- **Human Resources**
- **Third Parties**
- **Warehouses** (valid only for the initial import of stock)

The screenshot displays the Fractal One user interface for the 'Equipment' module. At the top, there is a search bar with 'fractal' and a navigation menu with 'Assets' and 'Equipment'. Below the search bar, there are navigation tabs for 'List' and 'Treemap'. The main content area shows a table with columns: 'Enabled', 'Out of Service', 'Description', 'Code', and 'Nombre'. A single row is visible with the following data: 'Yes', 'No', 'Horno Industrial', 'HOR-001', and 'Horno Industrial'. A dropdown menu is open on the right side of the table, listing various actions: 'Open PDF', 'Export', 'Bulk export data', 'Print QR', 'Import' (highlighted with a red box), 'Delete Imported Data', 'Fields Configuration', 'Clone Asset', and 'Batch Edition'. At the bottom left, it says 'Showing 1 of 1' and at the bottom right, there is a blue circular button with a plus sign.
